

Grab your share of the profits...

The Station House

Tempt your customers with more than just the usual bar snacks by offering delicious sharing platters! Allowing you to **simply offer food throughout the day**, the It's Good To Share platter is the ideal way to create extra profit for your pub! Featuring **a truly mouth-watering selection of popular favourites**, ranging from the timeless **Battered Natural Onion Rings** to the tempting **Crunchy Chick 'n' Mini Fillets**, the It's Good To Share menu concept went down a treat when recently trialled by Michael and Sue Adams of The Station House, Whitland.

Michael commented, "The **products were great quality** and lots of our customers who would usually just come in for a drink decided to order a platter to share! During the trial period we saw our **profit increase by a fantastic 13%**, as we were able to easily offer food at a time when previously sales were quite low."
